A bus has been donated to enable children and families to access therapy and training at Cochlea Pune

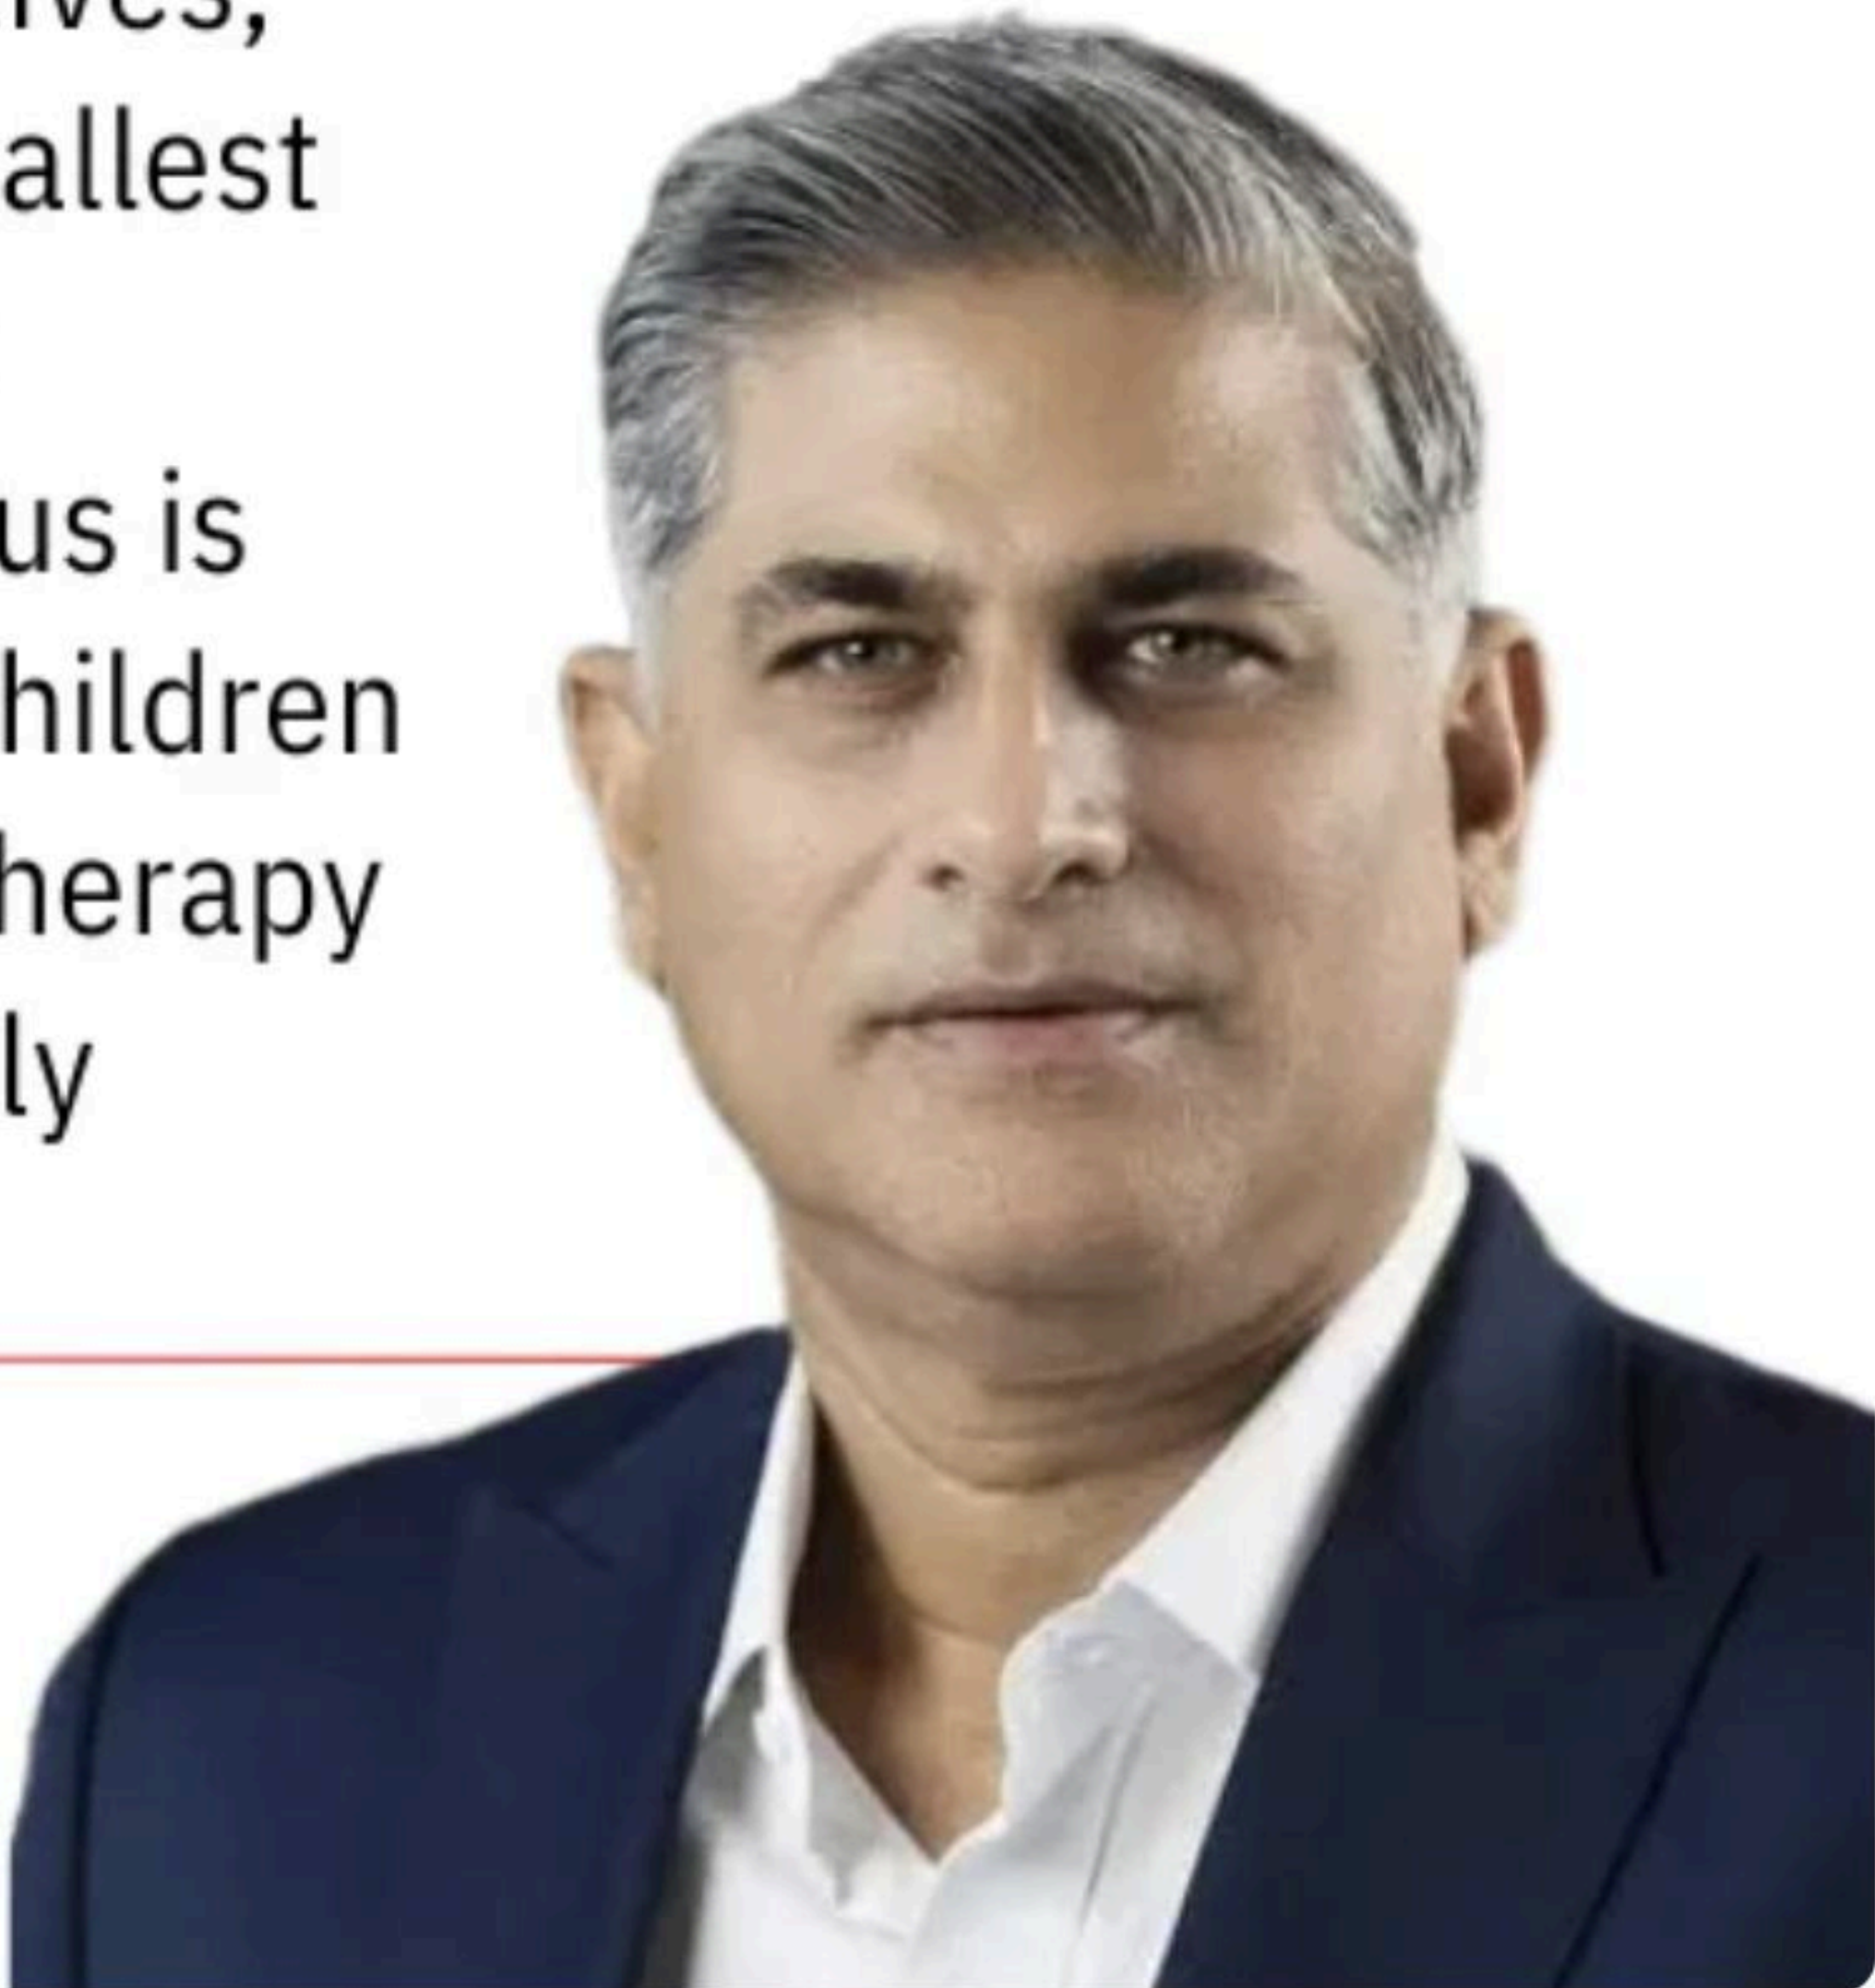

QUOTE

In the corporate world, we often focus on large-scale initiatives, but it is sometimes the smallest steps that create the most meaningful change. This bus is one such step as it helps children and their families access therapy and education that can truly transform their future

Ventive Hospitality, in collaboration with Panchshil Foundation, has donated a bus to Cochlea Pune for Hearing & Speech to support mobility for hearing-impaired children and their families.

The bus will function as a dedicated shuttle service across four routes between Chinchwad and Cochlea’s Kothrud centre, ensuring regular access to therapy, counselling, and training sessions.

Ranjit Batra, CEO, Ventive Hospitality Limited, said, “In the corporate world, we often focus on large-scale initiatives, but it is sometimes the smallest steps that create the most meaningful change. This bus is one such step as it helps children and their families access therapy and education that can truly transform their future.”

During the handover, audiologist Mugdha Arkadi said, “Watching children find their voice through speech development makes every challenge worthwhile.”

Ventive Hospitality also announced plans to explore future employment opportunities in hospitality for Cochlea’s students and set up awareness spaces in Panchshil cafeterias to highlight hearing health and early intervention.
